Academy, Darlington

Words&Pictures Case Study

## TRANSFORM YOUR SCHOOL ENVIRONMENT WITH IMAGINATIVE WALL ART

### Walls that wow

Your school is unique. But how can you communicate your values to your students, staff and the wider community, and how can you make your school stand out from the crowd? Imaginative wall art and signage could be the answer. Our expert and dedicated team of photographers, designers and copywriters will help you to communicate your school's unique story with maximum impact.

From individual board design and directional signage to full space branding, Words&Pictures combine award-winning photography with

innovative design to transform school environments. School leaders and Ofsted acknowledge that wall art and signage creates the right first impression and encourages a sense of pride among staff, students and visitors.

### Visualise your future

Consistent communication of your school values and key messages through wall art and signage will bring your environment to life and give your building an overall sense of identity. Whatever the challenge, we have cost-effective solutions to meet all budgets.

### Words&Pictures Case Study

#### Draw on your achievements

Transform your environment with inspiring images of your students or motivational quotes. Foamex boards, vinyls, wall transfers, hanging or roller banners all help to provide prospective students, parents and the wider community with genuine insights into the personality of your school.

Directional and external signage guides visitors to the right place. Designs consistent with your branding reinforce and communicate your

school’s values. Meanwhile, big, bold images or typography designs give busy areas, such as stairwells, a vibrant sense of place and purpose, and help to inspire students, staff and visitors as they move around school.

Words&Pictures has 20 years’ experience of engaging with young people through our innovative and award-winning services – from news magazines and prospectuses to brand identity and website design. Working in partnership with headteachers and students, we will help you bring your ideas to life.
